

Kayne Anderson Midstream/Energy Fund Announces Monthly Distribution for September 2018

Houston, TX – September 10, 2018 – Midstream/Energy Fund, Inc. (NYSE: KMF) (the “Fund”) announced today a distribution of \$0.10 per share for September 2018. This distribution will be payable on September 28, 2018 to common stockholders of record on September 20, 2018, with an ex-dividend date of September 19, 2018.

The Fund previously announced its intention to adopt a monthly distribution after the closing of its merger with Kayne Anderson Energy Total Return Fund, which closed on August 6, 2018. The distribution payable in September is the first monthly distribution under the new policy. Going forward, the Board of Directors intends to declare three monthly distributions during the month following its fiscal quarter-end. The distributions for October, November and December 2018, are expected to be declared at the regularly scheduled meeting of the Board of Directors in late September.

The Fund estimates that 85% of the distribution payable in September will be treated as a return of capital for tax purposes. This estimate is based on the Fund’s anticipated earnings and profits for fiscal 2018 and its accumulated earnings and profits as of November 30, 2017. The Fund’s estimate does not include a projection of gains and losses on the sale of securities for the remainder of fiscal 2018. The final determination of the tax character of the distribution will be made in early 2019 when the Fund can determine its actual earnings and profits for the full year (including gains and losses on sales of securities during fiscal 2018) and may differ substantially from this preliminary information.
